Accra

Dear Mr. and Mrs. Bosteen,

Thank you very much for the grant to install ten solar street lights. We are so pleased and it has made a big difference in the security of our compound. These past few weeks' town lights have been off frequently and having the solar lights helps so much in lighting up the area.

We were pleased when Helena came to visit and it was then that I asked her about the foundation. It was then that she told me the foundation had been set up by the two of you. After checking the webpage I was able to see the many projects you have helped, you are certainly given back to society and that is wonderful.

Know that you will be remembered in our prayers. Please stop by to visit when you are either in our area or have the time, you are always welcomed.

Gratefully yours,

Sister Elizabeth Newman SSND and children  
Director
